Bird Highlights: White-tailed Sabrewing; Black-backed Manakin; Yellow Legged Thrush; Rufous-vented Chachalaca; Ruby Topaz Hummingbird; Collared Trogon; Red-crowned Woodpecker; White-fringed Antwren

Day 7 Return to Port of Spain and Departures

Today you return to Port of Spain in Trinidad to catch international flights. Your departure from Cuffie River is timed accordingly; please make sure your shuttle is arranged the day before. Flights home must be AFTER 10AM; if you have an early flight you'll need to spend a final night at an airport hotel in Trinidad. Please discuss this with your travel planner, who can make suggestions. Also, we sometimes schedule the birding walk for this morning, and those with an earlier departure may not be able to join the group for this activity.

Itinerary subject to change due to weather, road condition, access and other real-world factors. The order of the trips may also change. Should a location or region become unviable, we will make every effort to visit an equivalent location or region.
